**Type of Document and Timing Based on the Technical Plan:**

**Summary of Decisions Reached:**

The Board discussed the results of the research performed to date on existing other financial communication frameworks (e.g. GASB Statement No. 34, Basic Financial Statements— and Management’s Discussion and Analysis—for State and Local Governments) and financial communications in the not-for-profit sector today. The Board decided to issue a Discussion Paper to solicit input from the not-for-profit sector; the feedback would be used in assisting the Board when making a decision of whether to add this project to their standard-setting agenda. The Board decided that the issuance date should coincide with the issuance date of the Exposure Draft on the Not-for-Profit Financial Reporting: Financial Statements project. The Board noted that this would bring more attention to the Discussion Paper as well as provide a better basis for stakeholders to provide input. Based on the current technical plan, the Discussion Paper would be issued in the fourth quarter of 2013.
