

## REVISED

### FASB AND IASB TO HOLD JOINT ROUNDTABLE MEETINGS ON REVISED LEASES PROPOSALS

#### September and October 2013 **Public Roundtable Meetings on the FASB and IASB Revised Exposure Drafts on Leases**

The FASB and the IASB will host several joint public roundtable meetings on their revised joint proposals on leases that were published in May 2013: the revised proposed FASB Accounting Standards Update, *Leases (Topic 842)*, and the IASB Exposure Draft, *Leases*.

The roundtable meetings are an important part of the Boards' due process on the revised Exposure Drafts. The meetings will provide an opportunity for those that have submitted a comment letter, or who still intend to submit a comment letter, to discuss the proposals with the Boards in further detail. To ensure that the Boards receive input covering a variety of perspectives, the Boards are seeking participation from preparers, auditors, investors, and others.

Registration information for interested participants and observers is available on the [leases](#) project page.

An audio recording of the roundtable meetings will be made available shortly after each meeting on the [FASB](#) and [IASB](#) websites.
